PROFILE SUMMARY

Strategic SAP Security and GRC professional with over 7 years in architecting secure enterprise landscapes. Proven track record in managing large-scale global projects across India, Canada, and the UK, leading end-to-end S/4HANA transformations, GRC 12.0 implementations, and BTP cloud security governance. Expert in designing scalable, audit-ready authorization models, enterprise role governance frameworks, and SoD-compliant access controls aligned with business and compliance requirements. Skilled in SAP Security automation concepts, AI/Python-driven operational optimization, cross-system risk analysis, and secure cloud authorization administration.

PROFESSIONAL EXPERIENCE

Deloitte Touché Tohmastu India LLP

Deputy Manager-Technology & Transformation - ET&P - SAP

Bengaluru, Karnataka

Oct 2022 - Present

SAP S/4HANA Security & Role Governance:

- Led SAP S/4HANA role design initiatives for L1-L4 business requirements, designing and implementing 300+ task-based roles and 100+ business roles aligned with enterprise governance and SoD compliance standards.
- Developed enterprise role governance frameworks including role matrices, naming conventions, and authorization standards aligned with SAP S/4HANA transformation and cloud governance requirements.
- Designed and built SAP business roles, derived roles, Fiori catalogs, spaces, and pages for SAP S/4HANA landscapes.
- Conducted proactive SoD risk assessments on existing access models and advised business stakeholders on remediation strategies to support compliant and risk-aware authorization design decisions.
- Reduced authorization defects during SIT/UAT cycles through proactive access validation and cross-functional collaboration with business, ABAP, Basis, and functional teams.

SAP Fiori & Technical Security Administration:

- Led SAP Fiori access troubleshooting using SU53, STAUTHTRACE, /IWFND/ERROR.LOG, /IWBEP/ERROR.LOG, browser console analysis, and backend authorization trace tools.
- Governed Fiori access enablement including OData and SICF service activation across enterprise SAP applications.
- Collaborated with cross-functional teams to resolve complex access and application security issues during implementation and testing cycles.

SAP GRC Access Control:

- Delivered end-to-end SAP GRC Access Control implementations across ARA, ARM, EAM, BRM, UAR, and RM modules, including SoD ruleset design, risk optimization, mitigation control alignment, and remediation governance.
- Enhanced Firefighter (FF) Log Review processes through MSMF workflow customization and approval workflow optimization.
- Executed cross-system risk analysis and provisioning integration for SAP S/4HANA, SAP ECP, and SAP SuccessFactors.
- Conducted SoD analysis using Deloitte ACTT tools to identify and remediate high-risk access conflicts for client's production data.
- Contributed to a Python-based automation PoC for SAP GRC access request creation and workflow acceleration.

SAP Build Work Zone & SAP BTP Administration:

- Managed SAP Build Work Zone authorization integration and role exposure within SAP BTP security architecture.
- Administered SAP BTP Role Collections, IAS Group Mapping, cloud user provisioning, and access governance activities across SAP BTP and SAP S/4HANA landscapes.

Testing, Governance & Delivery Support:

- Prepared and executed security test scenarios for SIT, TUT/UAT, and regression cycles, including defect analysis, authorization issue remediation, and access validation activities.
- Facilitated workshops with business, functional, and technical teams for security requirement gathering and solution alignment.
- Governed SAP security operations across Development, QA, Pre-Production, and Production S/4HANA landscapes.
- Delivered SAP Security and SAP GRC knowledge transfer sessions and internal capability-building programs.

➤ **Worked for Geographic Location:** India, Canada

Environment: SAP GRC AC 12.0, SAP S/4HANA, SAP Fiori, SAP Build Work Zone, SAP BTP, SAP SuccessFactors, SAP ECC, SAP ECP

IBM India Pvt. Ltd

Package Specialist - SAP Security & GRC

Kolkata, West Bengal

July 2018 - October 2022

SAP Security Administration:

- Designed and maintained SAP PFCG roles across ECC, ISU, CRM, C4C, BW, and Fiori landscapes aligned with business access requirements.
- Managed user access administration, provisioning, and complex authorization issue resolution using SU53, ST01, STAUTHTRACE, and Fiori error analysis tools.

- Governed SAP CUA and non-CUA user administration across enterprise SAP landscapes.
- Automated repetitive SAP access administration activities using SECATT scripts for password resets, role assignment, and access maintenance.

SAP GRC Access Control

- Supported SAP GRC ARA, ARM, and EAM processes including SoD risk analysis during role design and user provisioning activities.
- Supported audit reporting, user access reviews, and compliance governance activities.

SAP BW & BOBJ Security:

- Built and maintained SAP BW Analysis Authorizations using RSECADMIN.
- Managed SAP BusinessObjects access administration and role assignments.

Project & Governance Contributions:

- Supported SAP migration and transformation initiatives from SAP Security and access governance perspectives.
- Performed SAP License Audit activities using SLAW2 and USMM.
- Delivered SAP Security knowledge transfer sessions and mentored junior team members on access governance processes.
- Collaborated with global stakeholders across UK-based transformation and compliance initiatives.

➤ **Worked for Geographic Location:** United Kingdom

Environment: SAP ECC 6.0, SAP ISU, SAP CRM, SAP C4C, SAP GRC 10.1/12.0, SAP BW, SAP Fiori

CORE COMPETENCIES

- Enterprise Role & Access Governance
- SAP S/4HANA & Fiori Security Architecture
- SAP GRC Access Control, Compliance & SoD Governance
- SAP BTP Authorization, SAP Build Work Zone
- SAP Security Transformation & Modernization
- Stakeholder & Global Delivery Management

CERTIFICATIONS

SAP Certified Application Associate SAP Access Control 12 July 2022

SAP Certified - Positioning SAP Business AI Solutions as Part of SAP Business Suite Dec 2025

INDUSTRY EXPERIENCE

- Energy & Utilities
- Consumer Products

EDUCATION

International Institute of Information Technology

Bhubaneswar

Course: Bachelor of Technology, Computer Science and Engineering

August 2014-June 2018

- Cumulative GPA: 8.02

ACHIEVEMENTS

- **Deloitte Recognition Awards:** Multiple awards for project delivery excellence and technical contributions to the SAP Security practice.
- **IBM Manager's Choice & Spark Awards:** Recognized for top project performance and operational excellence in delivery support.
